

No-Sew Conductive Bracelets

Make a No-Sew Conductive Bracelet using this guide. You'll need a battery, LED, and some Maker Tape™.

Written By: Pete Prodoehl

INTRODUCTION

These bracelets can be made with paper or felt. Felt is a little more durable, though construction paper or cardstock can also be used.

TOOLS:

- [Scissors](#) (1)

PARTS:

- [Paper Circuits Kit](#) (1)
- [Felt](#) (1)

Step 1 — Make the Bracelet

- Follow the guide to make your own no-sew conductive bracelet!
- When you connect the bracelet together, you complete the circuit to light up your LED.

Step 2 — Decorate the Bracelet

- You can extend this project further by adding more LEDs or getting more decorative with the bracelet.
- Add a flower, a character, or other decorations to your bracelet.
