

# Moisture Sensing Transistor Circuit

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

Written By: Andy Wallus

## INTRODUCTION

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

### TOOLS:

- [Scissors](#) (1)

### PARTS:

- [2N3904 NPN Transistor](#) (1)
- [CR2032 Battery](#) (1)
- [Jumbo 10mm Diffused LED](#) (1)
- [4700 Ohm Resistor](#) (1)
- [Maker Tape, 1/4" Wide](#) (1)
- [Printable Template](#) (1)
