

Minecraft-Inspired Torches

Make these Minecraft-Inspired Torches using this guide and the templates found in the attached PDF file.

Written By: Andy Wallus

INTRODUCTION

Make these Minecraft-Inspired Torches using this guide and the templates found in the attached PDF file.

These projects can be created with our **Paper Circuits Kit**. You'll just need some Maker Tape, a CR2032 Battery, and a Jumbo 10mm LED.

You'll need to supply your own paper, scissors, and tape. (And colored pencils, crayons, or markers if you choose to use the black & white templates.)

TOOLS:

- [Scissors](#) (1)
- [Markers, Crayons, or Colored Pencils](#) (1)

PARTS:

- [Paper Circuits Kit](#) (1)
- [Tape](#) (1)

Step 1 — Build Your Torch

- **Gather** materials and tools listed.
- **Print template** back-to-back using the file located at the bottom of this guide.
- **Follow instructions included on template.**

Step 2 — Make More Things

- Check out our [Minecraft-Inspired Paper Circuits \(full series\)](#) guide for more fun projects!
